The Survivor Outreach Services mission is to advocate on behalf of all Families who have suffered the loss of a Soldier and to educate the community about the SOS program. The program strives to build a unified support system which embraces and reassures Survivors that they are continually linked to the Army Family for as long as they desire. SOS also acts as a liaison between the surviving Family and the units to enable communication and information for special memorials and events. We connect Families to resources including support groups, newsletters, information briefs, and social activities.
